

**PRICE-LIST**

tariffs for services of the state budgetary healthcare institution "Kamchatka Regional Maternity Hospital" provided on a paid basis

№ p / n	Name of service	Cost (rub.)
<i>Ultrasound examinations</i>		
1	Ultrasound examination of the abdominal organs	1 415
2	Ultrasound examination of the kidneys and adrenal glands	1 155
3	Ultrasound examination of the thyroid gland (thyroid gland + lymph nodes)	1 415
4	Ultrasound examination of the gallbladder with determination of function	1 155
5	Ultrasound examination of the mammary glands (mammary glands + lymph nodes)	1 415
6	Echocardiography	3 290
7	Transrectal ultrasound examination of the prostate gland with determination of residual urine (prostate gland + bladder)	1 680
8	Ultrasound examination of the scrotum organs (testicles, appendages)	1 165
9	Ultrasound examination of the pelvic organs (uterus and appendages)	1 415
10	Bladder ultrasound	900
11	Transvaginal examination of the pelvic organs (uterus, appendages)	1 425
12	Transvaginal examination of the pelvic organs with Doppler (uterus, appendages + blood flow study)	1 940
13	Duplex scanning of brachiocephalic vessels with color Doppler blood flow mapping	3 220
14	Ultrasound examination of pregnancy I trimester	2 190
15	Ultrasound examination of pregnancy II, III trimester (+ Doppler)	3 480
16	Ultrasound examination of pregnancy (I screening) multiple pregnancy (twins)	3 550
17	Ultrasound examination of pregnancy (II - III screening) multiple pregnancy (twins)	5 230
18	Ultrasonic hysterosalpingography (without antibacterial prophylaxis)	5 770
19	Ultrasonic hysterosalpingography (with antibacterial prophylaxis)	6 500
20	Dopplerometry	1 415
21	Ultrasound examination of the cervix (cervical canal)	1 165
<i>Functional diagnostics</i>		
1	Computed cardiocography of the fetus	1 455
2	Electrocardiography	615
<i>Physiotherapeutic procedures</i>		
1	Galvanization (using mud wipes)	130
2	Medicinal electrophoresis by constant, diadynamic sinusoidal modulated current	150
3	Ultrasound therapy	168
4	SMT therapy	193
5	Darsonvalization	166
6	Magnetic Infrared Laser Therapy	142
7	Lighting	118
8	Magnetotherapy	118
9	UV exposure	137
10	UHF therapy	118
11	Diadinamotherapy	120
<i>The list of services in obstetrics and gynecology</i>		
1	Cervical Biopsy	2 500

2	The introduction of the IUD (excluding the cost of the IUD)	1 095
3	The introduction of laminar sticks	1 180
4	Taking uterine aspirate	2 095
5	Getting a vaginal smear	340
6	Diagnostic laparoscopy (without anesthetics)	15 995
7	Diathermocoagulation of the cervix	1 270
8	Electrodermatoconization of the cervix (without the cost of anesthesia)	2 215
9	Cervical destruction of the cervix	2 220
10	Colposcopy	2 205
11	Laparoscopic surgery (without anesthetics)	26 260
12	Medical abortion (without anesthetic allowance)	2 535
13	Endometrial Vacuum Aspiration	1 800
14	Medical abortion (medical) (up to 6 weeks of pregnancy)	10 790
15	Medical abortion (medical) (over 6 weeks of pregnancy)	13 050
16	IUD removal	1 310
17	Vaginal healing plugging	555
18	Restoration of the hymen (without anesthetics)	8 525
19	Vaginal plastic surgery (without anesthetics)	37 990
20	Labia (without anesthetic)	18 770
21	Removal of a Bartholin gland cyst (without anesthetic aid)	31 025
22	The program "Comfortable childbirth"	34 430
23	The program "Comfortable childbirth (choice of obstetrician-gynecologist)"	47 880
24	Individual delivery post	35 813
25	Individual obstetric postpartum	14 920
26	Individual medical assistance in the gynecological department (1 hour)	1 660
27	Individual nursing care in the gynecological department (1 hour)	1 020
28	School for pregnant women (1 lesson - 60 minutes)	1 135
29	Individual assistance of a medical psychologist during childbirth	5 680
30	Hysteroscopy (without anesthetics)	16 273
31	Sterilization at the request of the patient during cesarean section	9 397
32	Sterilization during hospitalization in the gynecological department (not related to pregnancy) (without anesthetic aid)	28 117
33	Cosmetic intradermal suture (during cesarean section and during gynecological operations)	5 000
	<i>Anesthesiology</i>	
1	Individual anesthesiology post (anesthetist, m / s anesthesia., 1 hour)	2 650
2	Anesthesia during medical abortion, endometrial vacuum aspiration	1 210
3	Endotracheal anesthesia	14 470
4	Intravenous anesthesia	4 955
5	Epidural anesthesia for gynecological surgery	9 275
	<i>General manipulation</i>	
1	Intramuscular injection	145
2	Peripheral vein blood sampling	150
3	Taking blood from a finger	110
4	Intramuscular administration of human immunoglobulin antiresus Rho(D)	4 560
	<i>Cost of 1 visit</i>	
1	Reception (examination, consultation) of the obstetrician-gynecologist primary (reception is conducted by the head of the department)	2240
2	Reception (examination, consultation) of the obstetrician-gynecologist is repeated (reception is conducted by the head of the department)	1340
3	Primary reception (examination, consultation) of the obstetrician-gynecologist of a pregnant woman (reception is conducted by the head of the department)	2350
4	Reception (examination, consultation) of a pregnant obstetrician-gynecologist is repeated (reception is conducted by the head of the department)	1395

5	Primary reception (examination, consultation) of an obstetrician-gynecologist	1 885
6	Reception (examination, consultation) of the obstetrician-gynecologist repeated	1 110
7	Primary reception (examination, consultation) of a pregnant obstetrician-gynecologist	1 975
8	Reception (examination, consultation) of a pregnant obstetrician-gynecologist	1 160
9	Primary reception (examination, consultation) of a general practitioner	1 014
10	Reception (examination, consultation) of a general practitioner	952
11	Primary reception (examination, consultation) of a mammologist	1 195
12	Reception (examination, consultation) of a mammologist's doctor repeated	995
13	Reception (examination, consultation) of an anesthetist	675
	<i>Providing medical care in special conditions (staying in a single room with a compulsory medical insurance policy), bed-day</i>	
1	Obstetric department	3815
2	Obstetric Department of Pregnancy Pathology	1565
	<i>The cost of 1 bed in stationary units in the absence of a insurance policy</i>	
1	Obstetric department	9 500
2	Gynecological department	6 240
3	Department of Pregnancy Pathology	5 865
4	Day hospital	3 450
	<i>X-ray studies (excluding the cost of x-ray film)</i>	
1	Mammography	1 060
2	Hysterosalpingography	6 630
3	Chest x-ray	950
4	X-ray of the skull in direct projection	695
5	X-ray of the spine in dynamics	925
6	X-ray of the spine, vertical	695
	<i>Laboratory research</i>	
1	Registration (preliminary and final) manual	90
2	Venous blood treatment	65
3	Urinalysis (general)	345
	<i>registration (preliminary and final) manual</i>	90
	<i>visual examination of urine, determination of volume and specific gravity (relative density)</i>	35
	<i>determination of protein, glucose, hemoglobin, pH, ketones</i>	96
	<i>microscopic examination of urine sediment</i>	124
4	Detection of ketone bodies in urine using a test strip	40
5	Determination of protein in daily urine	140
6	Urine glucose test	70
7	Urine creatinine test	180
8	General (clinical) blood test	847
	<i>registration (preliminary and final) manual</i>	90
	<i>taking blood from a finger</i>	110
	<i>erythrocyte sedimentation rate test</i>	47
	<i>study of the level of total hemoglobin in the blood</i>	82
	<i>red blood cell count</i>	83
	<i>color indicator definition</i>	42
	<i>white blood cell count</i>	77
	<i>white blood cell ratio (blood count)</i>	316
9	Detailed general (clinical) blood test	1 542
	<i>registration (preliminary and final) manual</i>	90
	<i>taking blood from a finger</i>	110
	<i>erythrocyte sedimentation rate test</i>	47
	<i>study of the level of total hemoglobin in the blood</i>	82
	<i>red blood cell count</i>	83

	<i>color indicator definition</i>	42
	<i>white blood cell count</i>	77
	<i>white blood cell ratio (blood count)</i>	316
	<i>blood platelet count</i>	350
	<i>hematocrit assessment</i>	134
	<i>bleeding time study</i>	211
10	The study of the level of reticulocytes in the blood	370
11	Primary gynecological biochemical complex	1 801
	<i>registration (preliminary and final) manual</i>	90
	<i>venous blood treatment</i>	65
	<i>study of the level of bilirubin and its fractions</i>	220
	<i>study of the level of total protein in the blood</i>	145
	<i>blood urea test</i>	134
	<i>blood glucose test</i>	215
	<i>blood creatinine test</i>	180
	<i>blood sodium level test</i>	160
	<i>blood potassium test</i>	115
	<i>blood cholesterol test</i>	180
	<i>study of the level of aspartate transaminase in the blood</i>	148
	<i>blood alanine transaminase test</i>	149
12	Primary obstetric biochemical complex	1 526
	<i>registration (preliminary and final) manual</i>	90
	<i>venous blood treatment</i>	65
	<i>study of the level of bilirubin and its fractions</i>	220
	<i>study of the level of total protein in the blood</i>	145
	<i>blood urea test</i>	134
	<i>blood glucose test</i>	215
	<i>blood creatinine test</i>	180
	<i>blood cholesterol test</i>	180
	<i>study of the level of aspartate transaminase in the blood</i>	148
	<i>blood alanine transaminase test</i>	149
13	Blood test for the assessment of lipid metabolism biochemical	1 526
	<i>registration (preliminary and final) manual</i>	90
	<i>venous blood treatment</i>	65
	<i>study of the level of alpha-lipoproteins (high density) in the blood</i>	389
	<i>study of low density lipoproteins in the blood</i>	680
	<i>blood triglyceride test</i>	122
	<i>blood cholesterol test</i>	180
14	Blood glucose analyzer	185
15	Blood albumin test	190
16	Determination of the concentration of C-reactive protein in blood serum	60
17	Coagulogram Screening	1 340
	<i>registration (preliminary and final) manual</i>	90
	<i>venous blood treatment</i>	65
	<i>blood fibrinogen test</i>	238
	<i>determination of prothrombin (thromboplastin) time in blood or plasma</i>	135
	<i>determination of coagulation time of blood plasma activated by kaolin and (or) mullet</i>	305
	<i>definition of international normalized relations (INR)</i>	102
	<i>platelet aggregation assay</i>	405
18	Coagulogram detailed	3 195
	<i>registration (preliminary and final) manual</i>	90
	<i>venous blood treatment</i>	65
	<i>blood fibrinogen test</i>	238
	<i>determination of prothrombin (thromboplastin) time in blood or plasma</i>	135
	<i>determination of coagulation time of blood plasma activated by kaolin and (or) mullet</i>	305
	<i>definition of international normalized relations (INR)</i>	102
	<i>determination of thrombin time in the blood</i>	420

	<i>study of the level of paracoagulation products in the blood</i>	300
	<i>D-dimer determination</i>	1 135
	<i>исследование агрегации тромбоцитов</i>	405
19	Laboratory monitoring of therapy with indirect anticoagulants (thromboelastogram)	4 630
20	Microscopic examination of semen, including determination of the concentration of hydrogen ions (pH) in the ejaculate and a study of the level of total protein in the ejaculate	1 505
21	The study of antisperm antibodies in the seminal fluid and serum of women	5 005
22	Definition of the main blood groups (A, B, 0) and Rh accessories with registration and processing of venous blood	935
23	The study of antibodies to red blood cell antigens in serum	1 235
24	Phenotyping	390
25	Microscopic examination of vaginal smears	700
26	Histological examination of biopsy material (according to the price list of GBUZ "Kamchatka Regional Hospital named after A.S. Lukashevsky")	5 078
27	Torch complex	2360
	<i>registration (preliminary and final) manual</i>	90
	<i>venous blood treatment</i>	65
	<i>a complex of studies on the presence of antibodies to rubella virus: IgM, IgG, avidity of IgG</i>	510
	<i>a complex of studies on the presence of antibodies to cytomegalovirus: IgM, IgG, avidity of IgG</i>	635
	<i>a complex of studies on the presence of antibodies to herpes virus type 1,2: IgM, IgG, avidity of IgG</i>	495
	<i>a complex of studies on the presence of antibodies to toxoplasma: IgM, IgA, IgG, avidity of IgG</i>	565
28	Glucose tolerance test (with registration and processing of venous blood)	635
29	Blood Chlorine Test	150
